

1. What can a website do for me? The answer to this question is neither short nor easy. With a little research and thought you can find hundreds of reasons, but there are a few general statements that may help you realize your needs. First a website can reach millions of people that might not otherwise be available. Second, customers can view products, services, or whatever you want to share from the comfort of their own home. No matter what type of business you are in, there are ways to grow and make money on the web for you.

2. How much does a web site cost? There are quite a few factors that are going to affect the ultimate cost of your web site. These factors include how many pages you are going to have, if you will sell products on your website, the graphic work involved, and how interactive your future web site will be.

3. How long does it take to have a web site designed? The time frame is determined by the size of your web site, the complexity of your site

design, and our current client design schedule.

4. Will my website design be "Search Engine" friendly? All our websites are created with search engines in mind and the website design is compliant with search engine guidelines.

5. I hear that there are hidden costs associated with web design services. Is this true? No. We

discuss with you your website requirements and then price accordingly and once you have placed an order for your website design with us, that price is strictly adhered to.
